

Gain Immediate Access to Health Records to Improve Patient Satisfaction

GlobalSearch improves the management and accessibility of patient records by streamlining daily tasks from gathering patient history, to release papers and notes for follow-up care

“ By using GlobalSearch, our nurses can now quickly and effortlessly access client records while in the field so their individuals receive the best and safest care possible. Plus, GlobalSearch quickly paid for itself. I estimate that by using GlobalSearch we are saving more than \$70,000 annually in labor and office space costs. ”

— **Denise Schuffman, CEO,**
Dimensional Health Care Associates

Where is GlobalSearch Used?

- Medical Records
- Patient Admitting
