

Document Scanning for Manufacturing Records

At EO Johnson, we're committed to making your business better. For many organizations, this means clearing years of old files and folders, piles of paper, and a significant amount of square footage dedicated to storing paper. Digitizing your information increases efficiency, keeps important information secure, decreases costs and ensures that your business is ready for anything—including the future.

Scanning solutions to meet your needs

- Sales Records
- Service Records
- Design Records including large format documents
- Human Resources/Payroll
- Accounts Payable/Finance
- Safety/Training Records
- Historical Records
- Equipment Service Manuals
- Facilities Records including large format documents

Increase efficiency, decrease costs

- Reduce document search and retrieval times
- Eliminate lost or misplaced files
- Simultaneous access to information
- Recover office space used for paper records
- Disaster readiness—critical documents will always be available
- Compliance—apply and manage a retention policy

Manufacturing is all about information

Your designs, sales and service records are unique to your organization, and immediate access to this valuable information is the key to an efficient operation and providing a high level of customer service.

"We had a lot of sales and service history that was only available on paper. If a paper file got lost or misfiled we would not be able to access the information it contained. We needed to have those files scanned into electronic files and didn't have the resources to do that ourselves. We looked to EO Johnson to do that for us."
